

78-720 Fieldmaster[®] Shaker Sieve Tray

Description: When sampling, the thing being searched for is sometimes hidden in soil. For this reason, whether you are doing environmental science, archaeology, or other similar activity, you may need to sift through dirt to find what you are looking for. For these purposes, our Shaker Sieve Tray is invaluable.

Our shaker sieve tray is constructed of varnished pine, with stainless steel hardware cloth for a base. Two large handles allow for easy gripping, and the unit is small enough for one person to use.

To use, place the soil in question onto the screen. Shake the tray back and forth vigorously. The small soil particles will fall out, leaving only significant items behind.

Warranty and Parts:

We replace all defective or missing parts free of charge. Additional replacement parts may be ordered toll-free. We accept MasterCard, Visa, checks and School P.O.s. All products warranted to be free from defect for 90 days. Does not apply to accident, misuse or normal wear and tear. Intended for children 13 years of age and up. This item is not a toy. It may contain lead or small parts that can be choking hazards. Adult supervision is required.
